## **II. Information**

- As committee members we are all asked what is going on.
- Update with the Kyle Snyder situation that has broken the last few days.
  - o Important to respect the process
  - o All committee's that are in the know, are aware.
  - o This call is to let everyone know that the procedures are still set. Kyle still has his spot at Final X and that this weekend in Louisville is to pull the second athlete for Final X.
  - o We should not have reactions to the process and to let it play out.
  - o There is a lot of unknown, but wanted to get everyone an update on the process and what is going on with Kyle.
  - o 10-Year Athlete list, State Chair, and any clubs an athlete is a part of was notified about an athlete who was temporarily suspended. This is part of the process for the Safe Sport Center.
  - o There are two different entities. The SafeSport Center and the Legal piece.
  - o Good standing is if that person has a membership or not as we are always going to lean towards allowing an athlete to compete until they cannot.

- We did have three teenagers on the team and were Pan-American Champions.
